Announcement Regarding Scheffer Inc. Legacy Parts

Global Web Finishing (“GWF”) is pleased to announce that it has acquired all the Intellectual Property of Scheffer Inc. In keeping with the service record that GWF has provided to our customers we now want to extend that to the Scheffer Inc. product lines that we were proudly a part of in our past. GWF knows there remains a multitude of Machinery still in use in the market today. GWF can now provide you with original O.E.M replacement parts and rebuild and refurbish existing equipment in a timely manner. We are the only company that can provide you with a T.E.D. delivery table that is still today’s bench mark for rotary cutter high speed delivery systems.

There are other companies that might be offering themselves as “Original” Scheffer Inc. O.E.M. dealers. Be aware that GWF purchased this technology in order to service the customer base and we will defend our rights regarding this technology against those companies offering to sell parts or equipment using any of our Intellectual Property and/or drawings.

Feel free to call me personally to discuss your needs. I look forward to that opportunity.

Sincerely,

Steve Orto
President
Global Web Finishing
